DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/18/03 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 thru 3, 6, 7, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Lee et al. 5,223,447. Lee discloses (see, for example, FIG. 3) a DRAM cell (semiconductor device) comprising a semiconductor substrate 22/33, and isolation merged trench (element isolation trench). The trench width of an upper end, trench width of a bottom surface, side surface, first side surface, second side surface and third side surface are identified below (from FIG. 3 of Lee et al. '447). The trench width of an upper end is larger than the trench width of a bottom surface. The length of the side surface located between the upper end and bottom end is larger than a straight line connecting the upper end and bottom end. The first side surface and

second side surface are perpendicular to the substrate and are connected by an inclined third surface.

Regarding claim 7, Lee discloses a field oxide film (insulator) 24.

Response to Arguments

4. Applicant's arguments with respect to claims 1-3, 6, 7, and 18 have been considered but are moot in view of the new ground(s) of rejection.
